This index is accurate insofar as was possible. Legibility of the old records was a factor. Some names may not be spelled correctly and for that I apologize. Infant index is alphabetized. The first name left side of page is the name of the infant, next is the father, next the mother. If there are three columns of numbers the first column is the numerical order of the birth, next the book number, next is the page number in the book.

### Example:

Infant	Father	Mother	Order of Birth	Book #	Page #
Doe, Jane	John Doe	Jean Jones Doe	120	1	120

Additional Copies Of this Index Are Available.
